

Which form should I use?

There are different ways to request IT items, and the process to request each is determined by the type of item needed. Some items we keep in stock locally, some items must be ordered upon request, and common, consumable items can be ordered directly from a departmental business office.

Please follow the below guide when requesting items as this will better assist you in getting your item quickly:

Standard items that we keep in stock can be requested by completing the “[ADS Deployment from Stock Request & Approval Form](#)”. Your assigned ‘IT Purchasing Approver’ will submit the form to Desktop Services for deployment via opening a LanDesk support request.

- PC (Standard & Developer Models)
- Laptop (Standard & Developer Models)
- Tablet Computer
- Ultralight Laptop
- Docking Stations (for Standard, Developer & Ultralight Laptop Models)
- Additional Laptop Charger
- Monitors (22” and 24”)
- MS Office Upgrade (to receive MS Access)
- Convertible Laptop

* Please note that large orders that request over (10) units of an item should be requested via the purchase request process below as we do not keep a large stock of items on-hand.

Items that are not kept in stock will need to be ordered directly from a vendor can be requested by completing the “[ADS IT Purchase Request and Approval Form](#)”. Your assigned ‘IT Purchasing Approver’ will submit the form via opening a LanDesk support request.
